

A: COMMUNICATION

the picture on the right shows a communication tower at Gharghur; this tower relays the television and radio programmes we receive at our homes. So this tower helps us communicate.

Which means of communication would you use:

1. To learn about yesterday's news.

2. To speak to an uncle who lives in Australia.

3. To send a photo of your brother's baptism ceremony to your penfriend who lives in Italy.

4. To let your friend know about your meeting place this afternoon.

5. To complain about a hazard in your street.

6. To voice your opinion about a law currently being discussed in Parliament.

7. To encourage people to reduce pollution by making better use of public transport.

8. To ask permission to wear the school tracksuit instead of the school uniform when we have PE lessons

9. To voice your disagreement about the development of fertile land lying in the limits of my village. _____

10. To do some research about the Ġgantija Megalithic Temples for a school project.
