

Read carefully about the activities of the following four people.

Everyday **Roseanne** brings lunch in a plastic bag. As soon as she eats it, she throws away the plastic bag into the bin.

Daniel shops in a supermarket and each time he buys a new plastic bag to carry his shopping.

Every morning, **Joanne's mother** throws away all her waste in a garbage bag which she places outside. She puts all types of garbage in the bag: paper, tins, glass bottles, plastic objects, food and any other thing.

Tony's father has just bought a new washing machine since the old one is damaged. He threw away the old washing machine in a field by a rubble wall.

These children and their parents are not caring for the environment.
Write what each one of them can do to reduce waste.
