

## G 5.2 INVESTIGATING A FOREIGN COUNTRY

### G5.2.4

We compare the lifestyles of people living in a foreign country with the lifestyle of the Maltese and Gozitan people.

### A. Comparing Lifestyles

By browsing and researching on the Internet, we can compare our Maltese lifestyles with the lifestyles of people living in the country you are researching.

1. Go to [www.google.com.mt](http://www.google.com.mt); write: 'sports in \_\_\_\_\_' (write the name of the foreign country).

From the information and pictures you find, do you see any sport or two that are popular in Malta as well?

---

---

---

2. In the same search engine of Google, write: 'How \_\_\_\_\_ dress' (write the right adjective for the persons you are researching about, e.g. Italians, Germans, English .... etc...)

From the information you find, do you see any similarities between what the Maltese wear with what the persons in the foreign country wear?

---

---

---

3. Go back to Google's search engine, write ' \_\_\_\_\_ children' (in the blank write the right adjective, similar to the way you did in question 2).

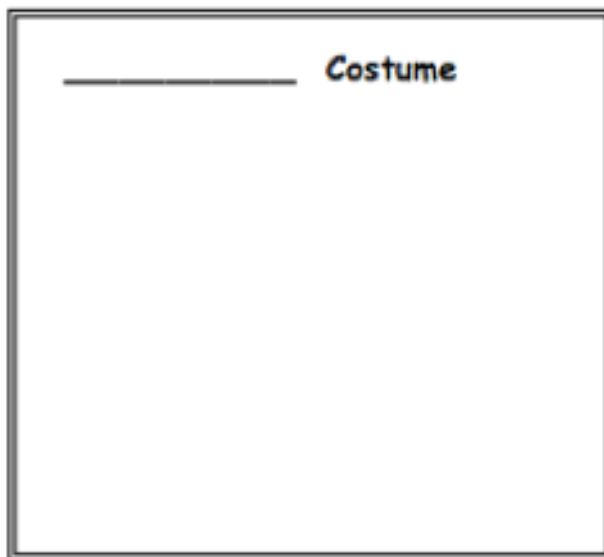

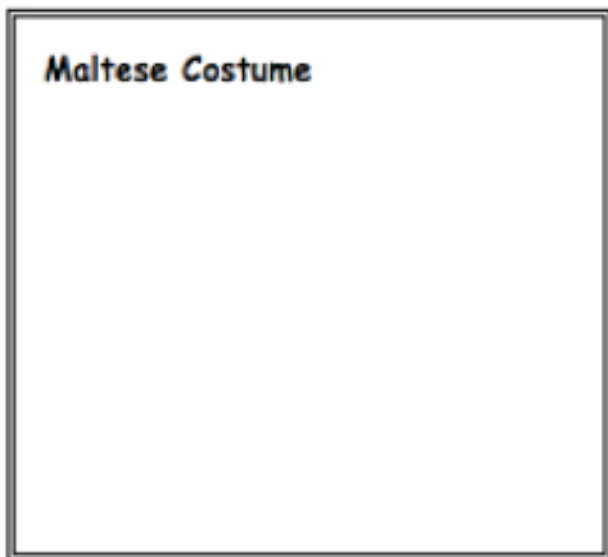

Mention something different as well as something similar (if any) that you notice when you compare your Maltese friends with children from foreign countries.

---

---

---

**B. Draw a Maltese Costume and a Costume from the country you are researching and write about similarities and differences.**
